**4) Lot Line Vacation/Replat for 5 Plaza Court, TR-1-E, TR1-D Edgewood Plaza Subdivision, Section 28, T10N, R7E N.M.P.M. 7.266 Acres Zoned C-2, Edgewood, New Mexico.**

Chairman Gabel introduced the Lot Line Vacation/Replat application and requested the presentation of the Staff Report.

Ms. Davis-McGill reviewed the Staff Report for the Commission.

Chairman Gabel expressed concern over the application being processed as a lot line vacation stating it will create two lots which will generate an impact, and asked Counsel if it should be reviewed during a public hearing instead. He added that the repositioning of the lot line falls back to the Final Plat requirements of the Subdivision Ordinance which would take place at a public hearing.

Mr. White stated he was not comfortable providing an opinion without having had an opportunity to review the application.

Chairman Gabel indicated he had some concerns regarding Tract 1-D as a result of the lot line adjustment. He stated the original plat allowed access to all of the Tracts via Plaza Court and moving the line would force Tract 1-D to access State Highway 333 which is in conflict with the design standards as defined in the Subdivision Ordinance section 10.N.

Chairman Gabel requested feedback from the Commission stating he was not comfortable proceeding until they received legal direction.

Commissioner Carpenter agreed to wait until they had resolution from Counsel.

Commissioner Cashatt added she also had concern with the access for Tract 1-D.

Chairman Gabel stated they could proceed with a discussion of the application but it will have to be revisited if it is required to go to public hearing. He added the access issues for Tract 1-D and the requirements of the Subdivision Ordinance exemplify the need for a public hearing.

Mr. Steve Williams of Dennis Engineering Company, agent for the applicant, responded stating the access for Tract 1-D was always intended to from Highway 333 as is indicated by the address on the plat and application.. He added that when the highway was widened an access for this lot was anticipated and provided. He stated the intent for the adjustment was to locate the lot line over the existing drainage culverts and easement for development purposes.

Chairman Gabel stated the application is more than just a lot line vacation and therefore can be processed under Section 12 of the Subdivision Ordinance and asked for clarification before they proceed.

Mr. White suggested the Commission defer this matter to allow him time to review the application and work with staff in determining the appropriate process.

Chairman Gabel stated they could proceed with a summary of some of their concerns before deferring the application. The concerns are as follows:

1. Appointment of Agency needs to be provided through a letter as opposed to a statement on the plat.
2. Adjoining property owners need to be identified by name and address on the plat.
3. Notification of the utility companies regarding the vacation/replat since the lot line is going to be moved.
4. Access to Tract 1-D is via state road 333 which does not conform with Subdivision Ordinance 2005-14 as amended June 5, 2013 section 10.N.a. And 10.N.c. One concern being the distance

between George Court and the access for Tract 1-D which must be a minimum of 150 from other intersections, Section 10.O.2.

5. Confirm adequate fire access, and fire hydrants for emergency vehicles from Highway 333 and Plaza Court.

Chairman Gabel indicated he would entertain a motion to defer this application pending guidance from Mr. White, legal counsel.

Commissioner Cashatt made a motion to defer the application pending direction from legal counsel at the next meeting; her motion was seconded by Commissioner Carpenter.

**Action:** Chairman Gabel voted aye. Commissioner Carpenter voted aye. Commissioner Cashatt voted aye. The motion carried.

#### **5) Review and Recommendation of the Subdivision and Zoning Ordinance Changes.**

At this time the Commission, staff, and Counsel entered into a review and discussion of the revised changes to the Subdivision Ordinance.

- 6) Public Comment. Limit to 2 minutes per person. Note: If you plan to speak under Public Hearings, please do not sign up for this topic.

Mr. Bassett, presented the Commission with a hand out regarding a new residential development in Albuquerque and how their Commission handles applications and the issue of water that most Communities in New Mexico face. He cautioned the Commission to be on the lookout for applications that are premature such as lacking a water commitment as seen in the article.

- 7) Matters from the Chair and Commission Members.

Chairman Gabel stated Commissioner Navarre had resigned from his position on the Commission. He added he would encourage the Mayor to find a new member as soon as possible and asked the Commissioners to spread the word as well. He also discussed the problems some of the Commissioners continue to have with their Town email.

Commissioner Cashatt responded she had been trying to coordinate with the tech and would try again tomorrow.

Ms. Davis-McGill asked Commissioner Cashatt to let her know if she continued to have trouble reaching him.

- 8) Matters from Staff.  
There were none.

- 9) Calendar Update.

Chairman Gabel stated the next regular meeting is scheduled for June 17, 2014 at which time they can prepare and review their recommendations for the changes to the Subdivision and Zoning Ordinance. He asked if they would be able to revisit the application from tonight that was deferred.

Ms. Sweat responded that if it required a Public Hearing, the posting requirements would push it to the first meeting of July.

Chairman Gabel clarified the two items in question regarding the application:

1. Does it in fact require a Public Hearing.
2. If it does not require a public hearing, then what is the proper procedure.

10) Adjourn.

Commissioner Cashatt made a motion to adjourn the meeting; his motion was seconded by Commissioner Carpenter.

**Action:** Chairman Gabel voted aye. Commissioner Carpenter voted aye. Commissioner Cashatt voted aye. The motion carried.

Chairman Gabel adjourned the meeting at 7:46 P.M.

## Librarian Report

May 2014

Submitted by: Librarian, Andrea Corvin

Summer Reading Program registration was held during May 26 through May 31. Many children and parents (the excitement was palpable) visited the library to register for the **Fizz Boom Read** science themed program. Thus far, the library has tallied 137 registered participants!

Many thanks to Assistant Librarian, Barbara Hambek and Library Advisory Board Secretary, Sandy Madsen for volunteering their time to represent the library at the **Relay for Life Fundraiser** hosted by Walgreens! Barbara and Sandy did an excellent job providing fun activities for the kiddos attending this event!

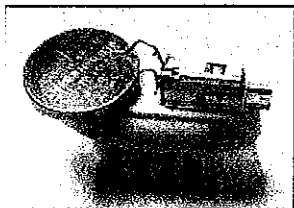

In late May, all Town of Edgewood departments were able to consult with **Safety Counseling** to evaluate their facilities for possible safety concerns and solutions. Although there were some safety concerns with the library facility that will be reconciled soon, there is a definite need to hold regular trainings and drills for both the volunteers and the library staff. In effect, a volunteer training will be scheduled during this upcoming August.

The library staff, along with other TOE employees, were also pleased to receive some very valuable training concerning active shooters. There were many useful tips and information presented by **Safety Counseling** that will also be shared with the library volunteers in August. The library staff are immensely appreciative of this pragmatic and worthwhile training.

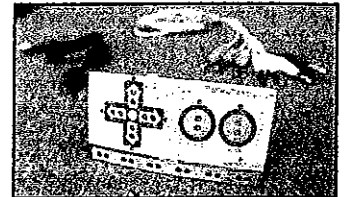

The library received some exciting news in late May. We've been selected as one of the libraries to host a community event on the **MakerSpace Tour** brought to you by the Parachute Factory and sponsored by the New Mexico State Library! MakerSpaces are essentially community centers with tools representing the democratization of design, engineering, fabrication and education

within the community (<http://makerspace.com/>). The Parachute Factory, located in Las Vegas, NM is one of these very same communities ([http://parachutefactory.org/?page\\_id=2](http://parachutefactory.org/?page_id=2))! They will be visiting on Thursday, July 17 at 10:30 am. Participants are sure to enjoy fabricating and experimenting with Toothbrush Robots and MaKey MaKey kits!

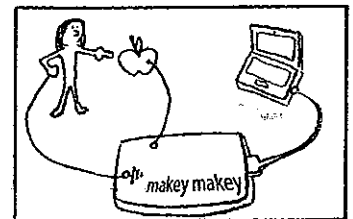

Attached, please find MakerSpace Tour flyer, library statistics, and materials added report.

Participants will have fun making tooth brush robots, too!

### **ACCREDITATION PROGRAM OVERVIEW**

Accreditation is the ongoing process whereby agencies evaluate policy and procedure against established criteria and have compliance with that criteria verified by an independent and authoritative body. The criteria, or standards, are policy development guidelines that represent a level of quality service delivery. The true indicator of compliance, however, lies with an evaluation by trained, independent professional peers. The establishment of meaningful and professional standards and an evaluation of compliance with those standards are, therefore, the two fundamentals of an accreditation program.

A voluntary statewide Law Enforcement Accreditation Program for New Mexico was adopted in 2002. The accrediting body is the New Mexico Law Enforcement Professional Standards Council (NMLEPSC) and is tasked with developing and maintaining a formal accreditation process specific to the needs of New Mexico Law enforcement agencies. The Council consists of the executive committee of the New Mexico Association of Chiefs of Police, the Executive Director of the New Mexico Municipal League, and two sheriffs representing the New Mexico Association of Counties Sheriffs Affiliate. The New Mexico Municipal League serves as the coordinating agency for the Council activities, while the Municipal League, the Self-Insurers' Fund and the New Mexico Association of Counties are the funding agencies.

In 2009, the NMLEPSC adopted a Recognition Program that requires compliance with a reduced number of standards selected from the Accreditation Program that represent the most critical areas of law enforcement. The NMLEPSC developed this Program particularly for smaller agencies that may find it difficult to initially attain full accreditation. The Recognition Program utilizes the same process as required for accreditation; however, attaining Recognition status is not equivalent to becoming an accredited agency. Those attaining Recognition status are encouraged to move on to become fully accredited.

The goals of the NMLEPSC are to:

- strengthen crime prevention and control capabilities;
- formalize essential management and administration procedures;
- establish fair and nondiscriminatory personnel practices;
- deliver professional law enforcement services to the community;
- solidify interagency cooperation and coordination; and
- boost citizen and staff confidence in the agency.

The attitudes, training and actions of personnel of New Mexico's law enforcement agencies best reflect compliance with formulated standards. Compliance with these standards will not ensure a crime-free environment for citizens, nor will it ensure an absence of litigation against law enforcement agencies and executives. However, effective and comprehensive leadership through professionally based policy development directly influences the law enforcement program that is comprehensive, obtainable and based on standards that reflect professional service delivery. In developing the program, the NMLEPSC recognized the somewhat limited financial and manpower resources of a great many law enforcement agencies and constructed standards that would not place overwhelming demands on those resources.

The standards are the basis of an accreditation or recognition program and affect every component of the agencies involved. Through the dedication to service and professionalism evidenced by the attainment of accredited or recognition status, law enforcement agencies can positively affect the communities they serve.

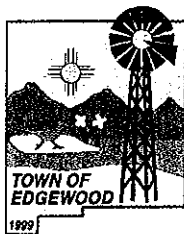

The development of department policy is the most significant duty of chief executive officers. Therefore, this program contains no recommendation on policies or procedures. The standards are only guidelines for *what* should be done, not *how* it should be done.

Policies on many topics, for instance the use of force, may be very similar among most agencies. On the other hand, policies dealing with disciplinary actions may vary greatly. Policy development that complies with these standards, however, remains dependent on the judgement of the chief executive officer of the law enforcement agency.

Through this Program New Mexico law enforcement agencies now have the framework to:

- reduce liability;
- initiate a restructuring;
- embark on a program of self-improvement;
- officially verify their excellence; and
- be ranked with *the best*.
